LEARNING OUTCOMES

Upon successful completion of the course, students will be able to:

- Plan, create, edit, and deliver presentations.

- Select and apply appropriate software tools to enhance and improve clarity of presentation content, including pictures, shapes, and WordArt.
- Critique presentations for correctness of content and format, professional appearance, creativity, and continuity.
- Create handouts and speaker notes to accompany presentations.

COURSE FORMAT

Course instruction will be “Self-Paced” and instruction will take place through short videos with additional aids including online tutorials, self-graded quizzes, as well as, office hours (in-person or through videoconferencing) for students with questions about the course material. Each class will be part of a course-long project and upon completion of the course, students will have prepared a variety of documents using many of the tools and techniques of the program. Students will use the concepts covered in the chapter assignments. Students should also plan to spend extra hours throughout the week to complete each chapter, and work on the course assignments.

ASSESSMENTS

Attendance & Participation

Regular student participation is essential. The material covered in each chapter will be cumulative, and missing a chapter will put a student at a serious disadvantage. A large number of very specific skills must be mastered, and a great deal of specific information must be understood.

Assignments

Eight assignments will need to be completed for the course. The assignments will require students to use the tools and techniques learned in class and will provide practical experience in creating, editing, enhancing, delivering and publishing a variety of business presentations. The due date for each assignment is different; see syllabus. **Contact the instructor if you need to arrange alternate dates. Late assignments will lose 10% per day penalty for each of the first three days.** No assignments will be accepted more than 3 days past the due date. The due date is considered Day 1.

Assignments must be handed in via Moodle (yukoncollege.me). Marks will be deducted for improperly presented work. All assignments must be submitted on or before the day requested, unless previous arrangements have been made in writing with the instructor.

An electronic version of each assignment including a marking rubric will be handed-in via Moodle before the specified due date.

Final Exam

A final exam will be scheduled during the final exam period (April 16 to 25). If you are ready to take the final exam before this time, please speak with your instructor. The final exam will test concepts covered during the entire course and will require students to use many of the tools and techniques in a practical manner. The final exam will be three hours in length.

ACADEMIC AND STUDENT CONDUCT

Information on academic standing and student rights and responsibilities can be found in the current Academic Regulations that are posted on the Student Services/ Admissions & Registration web page.

PLAGIARISM

Plagiarism is a serious academic offence. Plagiarism occurs when students present the words of someone else as their own. Plagiarism can be the deliberate use of a whole piece of another person's writing, but more frequently it occurs when students fail to acknowledge and document sources from which they have taken material. Whenever the words, research or ideas of others are directly quoted or paraphrased, they must be documented according to an accepted manuscript style (e.g., APA, CSE, MLA, etc.). Resubmitting a paper which has previously received credit is also considered plagiarism. Students who plagiarize material for assignments will receive a mark of zero (F) on the assignment and may fail the course. Plagiarism may also result in dismissal from a program of study or the College.
