DELIVERY METHODS:

MICR110 is a 1.5 credit course. Course content is presented in weekly tutorials. Students are expected to review course materials as well as spend additional time practising the functions and working on reinforcement exercises and assignments in order to master the required skills.

Students will access and complete coursework online. Students do NOT need to connect at specific times, but coursework must be completed on a set schedule. It is recommended students access the course Moodle site frequently throughout the week.

Topics will be covered through online books found on the course website at <http://moodle.yukoncollege.yk.ca>. The instructor will aim to keep the course material interactive and varied. In order to cater to a variety of learners, modules using video, print visuals, and audio will be employed. In addition, optional weekly tutorials, via video conferencing technology (Zoom), will be available to students.

Email and frequent internet access are an important part of this course. The instructor will communicate through the assigned Yukon College email addresses and the moodle.yukoncollege.yk.ca course website. The use of the moodle.yukoncollege.yk.ca course website is mandatory.

Graded assignments will be assigned from the text. Students will also be responsible for developing and delivering a presentation. In addition to this, there will be one final examination.

ACADEMIC AND STUDENT CONDUCT

Information on academic standing and student rights and responsibilities can be found in the current Academic Regulations that are posted on the Student Services/ Admissions & Registration web page.

PLAGIARISM

Plagiarism is a serious academic offence. Plagiarism occurs when a student submits work for credit that includes the words, ideas, or data of others, without citing the source from which the material is taken. Plagiarism can be the deliberate use of a whole piece of work, but more frequently it occurs when students fail to acknowledge and document sources from which they have taken material according to an accepted manuscript style (e.g., APA, CSE, MLA, etc.). Students may use sources which are public domain or licensed under Creative Commons; however, academic documentation standards must still be followed. Except with explicit permission of the instructor, resubmitting work which has previously received credit is also considered plagiarism. Students who plagiarize material for assignments will receive a mark of zero (F) on the assignment and may fail the course. Plagiarism may also result in dismissal from a program of study or the College.

YUKON FIRST NATIONS CORE COMPETENCY

Yukon College recognizes that a greater understanding and awareness of Yukon First Nations history, culture and journey towards self-determination will help to build positive relationships among all Yukon citizens. As a result, to graduate from ANY Yukon College program, you will be required to achieve core competency in knowledge of Yukon First Nations. For details, please see www.yukoncollege.yk.ca/yfnccr.

Reasonable accommodations are available for students requiring an academic accommodation to fully participate in this class. These accommodations are available for students with a documented disability, chronic condition or any other grounds specified in section 8.0 of the Yukon College Academic Regulations (available on the Yukon College website).
